

Protimeter Mini - BLD2000

Protimeter Mini - BLD2000

The most widely used moisture meters in the world are the Protimeter Mini series. These compact, general purpose moisture meters are used by building professionals and trades across the globe to check the moisture level of wood and masonry products for a vast range of quality control and dampness diagnosis applications.

Protimeter have now launched a new version of the Mini moisture meter. The new Mini incorporates a range of design refinements and features that make it much simpler to use. The stylish instrument case fits snugly in the hand, so it can be used effortlessly for long periods of time and the new display is very bright for visual clarity.

Also, if the instrument is left on, it switches off automatically after five minutes to conserve the battery life.

Protimeter have used their knowledge and expertise to produce an instrument that combines superior design with optimal functionality.

ACCESSORIES

CODE

PRODUCT NAME

BLD5000 Protimeter Hammer Electrode

For use with all Protimeter moisture meters to take readings at depth in timber.

BLD5020 Protimeter Deep Wall Probes - 9" length.

For use with all Protimeter moisture meters

BLD5060 Protimeter Heavy Duty Moisture Probe and Lead.

For use with all Protimeter moisture meters.

BLD5079 Pocket Size Moisture Probe and Lead

For use with all Protimeter moisture meters.

BLD5055 Heavy Duty Hammer Electrode

For use with all Protimeter moisture meters to take readings at depth in timber.
